(1)

The Inspector of Schools recommends the grant of special remuneration to the marginally noted --- persons of the Deputy Inspector's office for their work in connection with the recent Educational Exhibition. He says that the work was of an exceptional nature and was in his opinion sufficiently arduous to warrant special remuneration. In this connection please see Govt. of India, Finance Department Memo. No. F.5-VIII.R-1/30, dated the 3rd September 1930, explaining the scope and meaning of Fundamental Rule 46(b) & (c) in regard to the grant of honoraria for temporary additions to work. If approved, the -- Inspector may be asked U.O. whether, in view of the orders of the Govt. of India in the above Memo., he would still recommend the grant of honoraria to the staff.

(2)

It is not easy to decide what events are or are not "normal incidents of Govt. service". But since there have been but two Exhibitions of the kind, as far as I can find out, in the last twenty years, I incline to the view that these functions cannot reasonably be regarded as 'normal incidents'. The amount of work involved was, as I have stated, considerable and the case appears to me one in which remuneration might reasonably be given. I therefore continue to recommend the payment in question.

OFFICE OF THE INSPECTOR OF SCHOOLS,
COORG & BANGALORE,
C. & M. STATION,

Dated 10. 8. 1933.

My dear Kirkbride,

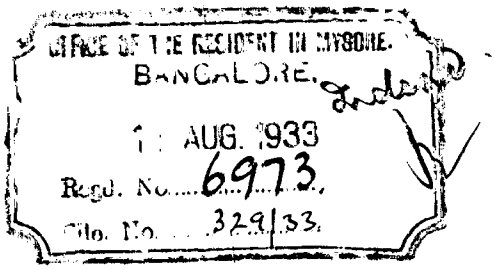
An Educational Exhibition has been arranged under the auspices of the Bangalore Teachers' Association, to be held in the R. B. A. N. M's High School for six days commencing on September 19th. The Committee, of which I am the President, would be most grateful if the Hon'ble the Resident would consent to open the Exhibition on the morning of the Opening Day. Would you kindly ask the Resident if he would be kind enough thus to honour the occasion?

2. I may add, for the Resident's information that the sole function of the Teachers' Association is the arrangement of monthly lectures on teaching methods in various subjects, and is in no way concerned with professional rights. The Association is divided for the purposes of the monthly meetings into four sections, viz. Secondary, Primary (Hindu), Muhammadan Boys', and Muhammadan Girls' Teachers' Sections. The Exhibition is designed primarily to stimulate practical work in connection with the teaching of the various school subjects, but it has been emphasized that nothing that would not normally be done or made during an ordinary school course is wanted for exhibition. A secondary object of the Exhibition is to interest parents and friends in the work that the schools are doing. Each evening from 5-6 P. M. there are to be entertainments by children from the different schools in the form of Drill, Dancing, etc. and displays

displays by the Girl Guides and Boys' Scouts.

3. I enclose a Programme of the lectures etc. that have been arranged by the Teachers' Association for the current year.

Yours sincerely
Ramanadha



To

Major G. Kirkbride, I. A.,
Secretary to the Hon'ble the Resident in

The Secretary.

W. Richards
8.9.33

Dear Richards,

Re the Educational Exhibition, I should like to settle two points before I go to Delhi.

(1) The Resident, having agreed to open the Exhibition may please be asked if 9 a.m. will suit him. If not, would he kindly suggest a more convenient hour?

(2) Would the Resident please

allow me, on behalf of the Teachers Association, to present him at the opening Ceremony, with an address? The address would be submitted in advance, to the Resident for his approval.

May I if possible, have a reply to these queries today, as invitation cards & the like have to be issued soon?

Yours sincerely,

J Edmonds.

To

Major G. Kirkbride, I. A.,
Secretary to the Hon'ble the Resident in
Mysore, Bangalore.

14/a

To the Hon'ble Lt-Colonel C.T.C.Plowden
Resident in Mysore

Sir,

1 We are deeply sensible of the honour you do us in being present today in order to open this Educational Exhibition. Not infrequently, in educational and other spheres, a quinquennial review of past activities is made. Five years have now elapsed since the last Exhibition of this kind was held; but our decision to hold an Educational Exhibition this year has been the happier, in that the expiry of the quinquennium coincides with the beginning of your term of office as Resident in Mysore.

2 Bangalore is well provided with facilities for education. There are at present 112 schools in the Station. Of these 21 are classed as European and 91 as Indian Schools. Of the male population 14.1% attend school, and of the female population 9.8%. If it is remembered that 15% of the total population is usually taken to represent the number of children of school-going age, it will be seen that the people of Bangalore are taking advantage, to no inconsiderable extent, of the educational facilities provided here. The figures I have quoted are higher than the corresponding percentages for any other educational administration in India.

3 It would not be correct to say that no more schools are needed; but it would be more pertinent to remark that our greatest concern at present is to improve the quality of our educational work rather than to increase its quantity. We desire that all our schools should be housed in light airy and suitable buildings, that each school should be staffed by trained and efficient teachers, that each school should be properly equipped with modern furniture and teaching appliances, and not least that our teachers should develop more pride in their profession and in their work. We hope that some progress is being made, though slowly, with regard to these matters.

4 It is a distressing fact that of the children studying in the first standards of our schools, only about 25% remain until they reach the fourth standard and attain permanent literacy. It is not compulsory education that is wanted in Bangalore so much as the compulsory retention in school for at least four years of those children who begin school. Such compulsion can only be exercised by public opinion.

5 Those who are responsible for the management of schools will, I know, readily admit that Government is not ungenerous in the matter of

educational grants. Managers of schools are however anxious that, for the greater security of their teachers after service and in order to secure a greater degree of permanence in their staffs, a Provident Fund scheme to include all schools, such as is in being in Madras, should be instituted by Government. A proposal for such a scheme is now before you, Sir, and it is earnestly hoped that you will consider it sympathetically and favourably.

6 The purpose of this Exhibition is twofold. In the first place, we hope that by the preparation of exhibits, the work of the schools will be stimulated. For, while there is no actual competition involved, schools have vied with each other, to their mutual benefit, to produce the best display. Particularly welcome have been the large number of 'teaching aids' submitted for exhibition, showing a growing appreciation of the need for practical illustration in teaching. In the second place, it was desired to interest the general public in what is being done in the schools. The cooperation of parents/and teachers is necessary for the well being of any school. Such cooperation is only too often absent. We hope that as a result of this opportunity for contact with educational work, parents will the more readily supplement the efforts of the teachers.

7 It is fitting that I should, in conclusion, make public and grateful acknowledgement of the services of those who have been responsible for organising this Exhibition. I wish to mention in particular, Mr Naidu, the Deputy Inspector of schools who, as organising secretary, has borne the brunt of the work. He was given valuable assistance by Mr Ramiah the Educational Superintendent of Municipal schools. I am very grateful, too, to the authorities of the R.B.A.N.M.'s High School who so readily offered these premises for our use during the Exhibition week, to the Municipal Commission, C. and M. Station, Bangalore, and the teachers and managers of all the schools who have so willingly and cheerfully cooperated in working for the success of this Exhibition.

8 Again we would thank you most sincerely, Sir, for having consented to open the Exhibition.

Departure of the Hon'ble the Resident (Gangathara Chetty Road Entrance)

× S.N. 4/a Encl. 5 P.W.C

I thank you most sincerely for the address you have presented to me. I should like to say at the outset what a great pleasure it is to me to have this opportunity of meeting a body representing a field of activity of such vital interest and concern to the Civil and Military Station of Bangalore. The pleasure is all the greater because though the educational exhibition is a quinquennial + function, it has been given to me, within a few months of my assuming charge as Resident in Mysore, to make ~~if~~ your acquaintance and to hear at first hand something of your problems and needs.

Education.

+ para 1 of S.N. 4/a Encl. 5 P.W.C

Though not a stranger to Bangalore still I have been away for over a decade and I am sure you are charitable enough not to expect me, at so early a stage in my office, to dwell at length on the points raised in your address.

× S.N.4/a
Encl. to P.W.C

address. But I can assure you, gentleme that I shall never fail to view those problems and needs ~~xx~~ which you have given expression to in your address, with the utmost sympathy and consideration. I can very well appreciate your solicitude for the formulation of a suitable scheme of Provident Fund. The matter is before* me and is receiving my earnest attention.

* para 5 of S.N.4/a Encl. to P.W.C
*: The question is pending in office. Will be Submtd. shortly

It is a matter over which we could take legitimate pride that, though the Civil and Military Station of Bangalore is only a pebble on the educational beach of India, still the percentage of scholars to the total population is greater in the Station than in British India. According to the educational statistics for 1930-31 the average for British India is only 4.7% while the figure for the Station stands as high as 13.8%. Bangalore

(S)
Education in India 1930-31
(Removed)

has

has thus given the lead in the field of education and I should like to take this opportunity to pay a tribute to the hearty co-operation which ~~the~~ both the public and those actively engaged in the task of teaching have ungrudgingly extended to Government. I am sure I am voicing the opinion of everybody present here when I say that that co-operation is due not a little to the confidence which ~~all sections of~~ the /public has in Mr.Edmonds.

Then again, in the sphere of female education, the percentage of scholars to the female population in the Station stands at 9.8 while ~~that~~ for the whole of ~~of British~~ India according to the statistics for 1930 is only about 2. But even here there are vast possibilities of development which I hope will be explored to the fullest extent. Anyone who has observed

the

× para 2 of S.N. 4/a Encl. to F.W.C.

⊗ Chart at (T) - page 624A of India in 1930-31 (Removed)

the recent developments in the field of ~~xxxxxx~~ education in India will be struck by the impetus which female education has gained of late. I might as well quote from the Hartog Committee Report which says "The importance of the education of girls and women in India at the present moment cannot be over-rated. It affects vitally the range and efficiency of all education. - - It is only through education that Indian women will be able to contribute in increasing measure to the culture, the ideals and the activities of the country".

You have pertinently remarked in your address that our efforts should be more and more directed towards the improvement of the quality of our educational work rather than to increase the quantity. There can be no doubt that it is an ideal devoutly

to

to be ~~wished for~~ decided. The educational exhibition is itself sufficient proof of your enthusiasm to translate that ideal to practical reality. Your Association[x] deserves to be congratulated ~~on your~~ for laudable efforts in this direction. Your object in arranging the exhibition is to stimulate healthy rivalry between schools and to focus the attention of the public to this aspect of educational activity. I can only wish that the exhibition, now a quinquennial function, may be held annually, so that it may ~~become~~ bring home to the public more frequently ~~a permanent feature of~~ the educational activities ~~life~~ in the Station. You might have heard of the work that is being carried on on similar lines by the City of London Vacation Course in Education held every year under ~~the auspices~~ distinguished[K] auspices. In the words of the Rt.Hon'ble H.A.L.Fisher, the Principal of the Course and one of the

most

x The exhibition is held under the auspices of the Bangalore Teaching Association - para 1 of S.N.1 of the (K).

most eminent educationists in England "the object of the course is, - - not merely to improve professional knowledge, but to open windows in every direction and to excite intellectual interest in large problems lying outside the work of the class room" and to afford opportunity for "social life and inter-communication of ideas". Gentlemn, I would earnestly exhort you to emulate those ideals and to avail yourself to the fullest extent of the opportunities for social life and inter-communication of ideas which these exhibitions and conferences afford. I would also request you to spare no pains to instil in the young minds committed to your charge an ardent appreciation of those ideals which should form the bed-rock of sound education. I am glad to find around me pupils belonging to the various schools in Bangalore, of all castes and creeds

drawn from every grade of society. Such association cannot but have the most salutary effect on the ~~tuctile~~ minds of the young. It is by bringing into closer contact the citizens of to-morrow that we develop in them that ~~xem~~ spirit of comrade~~ship~~ and esprit de corps and thus pave the way for communal harmony and concord.

Gentlemn, I wish your association all prosperity. I have great pleasure in declaring the educational exhibition open.

Kuar Chandra

Regd. No. 10026.
File No. 329/33

Sir,

I have the honour to forward herewith copies of applications received from the clerks ~~and peon~~ and peon of the Deputy Inspector's office, with the copy of the endorsement of the Deputy Inspector recommending the grant of special remuneration to them for their work in connection with the recent Educational Exhibition in this Station.

2. The organizing of an Exhibition on this scale involved a great deal of detailed work. This work during the 1928 Exhibition was not done by Government clerks, but this year the Clerk and the Attender of the Deputy Inspector's Office undertook the whole of this work in addition to their ordinary duties. The amount of this work naturally involved labour outside office hours. I can personally testify to the large amount of work necessary, without which the Exhibition could not have been conducted so efficiently.

3. The work was of an exceptional nature and was in my opinion sufficiently arduous to warrant special remuneration. The work was done without detriment to the legitimate duties of the persons concerned In these circumstances, I recommend that an honorarium of Rs.10/- to the Head-Clerk ~~and~~ Rs.5/- to the Attender-Typist, and Rs.3/- to the peon may kindly be sanctioned.

4. The expenditure will be met from the head "Account-II-Education-G-General-G-1-(3) - Other Charges - Miscellaneous" in the

current year's Mysore Assigned Tract budget.

I have the honour to be,

Sir,

Your most obedient servant,

Inspector of Schools,

Coorg & Bangalore.

Applications from Clerk Ramachandra Rao, Attender Bakhy and peon Abdul Sattar, of the Office of the Deputy Inspector of Schools, Bangalore, for remuneration for additional work consequent on the ensuing Educational Exhibition.

Submitted and recommended.

2. I have several times brought to your notice, in person, the increase in the work thrown on my office staff on account of the ensuing Educational Exhibition. It seems reasonable that they should be paid some extra remuneration. It is therefore submitted that the necessary permission for their accepting the remuneration may be obtained. As regards the source from which the amount of remuneration may be met, I can only state that it may have to be met from out of the funds from which the other items of expenditure connected with the Exhibition are met.

(Sd.) P.Ekantaranga Naidu,
Deputy Inspector of Schools,
C. & M. Station, Bangalore.
